Claims 66, 68-69, 72-73, 75-76, 78-79, 82-83, 86, 96, 99-103, are pending in this application.

Claims 1-65, 67, 70-71, 74, 77, 80-81, 84-85, 87-95, 97-98, are cancelled.

Request for Continued Examination

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.117(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/10/05 has been entered.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Roedel on 8/3/05.

1. All claims are now replaced with the attached list of claims, and are further amended as follows:
2. In claim 73, last line, "69" is replaced with "66".
3. In claim 76, last line, "73" is replaced with "66".

Art Unit: 1626

2. In claim 79, last line, "76" is replaced with "66".
2. In claim 83, last line, "79" is replaced with "66".

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the invention relates to a process of making compounds of formula I as in claim 101. Claim 66 is drawn to making the compounds by epoxidation of compound II, which is obtained by elimination of a leaving group from compounds IV, which is obtained by esterification or halogenation of compound V. The closest prior art of Grob et al., US 4,559,332 discloses a similar process but compounds of formula II are obtained by dehydration of compounds of formula V. There is no motivation or suggestion in the prior art to esterify or halogenate compound V to compound IV and subsequently remove a leaving group from compound IV to form compound II.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
